Dear Salisbury Inland Wetlands Commission,

We are proposing a 2 lot subdivision with free split on the property located at 143 White Hollow Road. The property contains ~29 acres. We are proposing a 12.36 acre lot with the original farm house, a 7.78 acre lot and a 8.82 acre lot. I have walked the property and there is no evidence of wetlands on the property. I have also looked at the national wetlands inventory as well as the NRCS Soil Survey and both indicate no wetlands soil on the property. We are therefore requesting a letter from the Inland Wetlands commission acknowledging to the Planning and Zoning commission that there is no impact to wetlands from this project.

Sincerely,

Keith Bodwell P.E.L.S.

White Hollow
